My Pet Goldfish: A Tiny, Colorful Friend

I have a little pet goldfish in a small bowl in my room. Its name is Sunny because it's as bright as a sunny day with its orange colour. It swims gracefully in the water, and I love watching it explore its tiny underwater home.

Feeding time is fun! I give Sunny tiny fish flakes, and it quickly eats them with its small mouth. Sunny knows when I come close and swims towards me, like saying hello.

I take good care of Sunny by cleaning its bowl and giving it fresh water. It makes me happy to see Sunny healthy and growing.

My pet goldfish may be small, but it brings me lots of joy and makes my room feel lively and colourful.

Answer these Questions:

1-What is the pet in the story?

2-Why did the author name the gold fish "Sunny"?

3-Where does "Sunny" live?

4-What does the author feed Sunny ,and how does Sunny react during feeding time?

5-How does the author take care of Sunny?
