## My Favourite Food

A burger is my all-time favourite food! It consists of a juicy patty made from meat or vegetables, placed between two soft and fluffy buns.

The best part is adding delicious toppings like cheese, lettuce, tomatoes, pickles, and sauces. Every bite is a burst of flavours, and it's perfect for satisfying hunger cravings. Burgers are popular in many restaurants and fast-food chains, making them a go-to choice for a quick and tasty meal.
