Lily Planted A Garden

Lily loves to help. One day, her grandma said, "Let's plant a garden, Lily!" Lily was very happy.

Grandma gave Lily tiny brown seeds. They looked so small! Lily helped dig little holes in the soft dirt. She carefully put one seed in each hole. Then, she covered the seeds with more dirt.

Next, Grandma used a watering can. She gave the seeds some water. "Seeds need water to grow," Grandma said. Lily watched the water go into the ground. The sprout grew taller each day. Soon, there were many green leaves. Lily felt proud of her garden. She knew yummy vegetables would grow soon!

1-Who did Lily plant a garden with?

2-What did Lily put in the holes?

3-What did the seeds need to grow?

4-What popped up from the dirt?

5-How did Lily feel about her garden?
