

Name:

Our Community Helpers

Community helpers are people who help us every day. Firefighters put out fires and keep us safe. Police officers help protect people and make sure everyone follows the rules. Doctors and nurses help us when we are sick. Teachers help children learn new things at school. These helpers are important because a community cannot function without their help.

1-Who are community helpers?

2-Who puts out fires?

3-Who helps us when we are sick?

4-What do teachers do?

5-Why are these people important for us?
