

Name:

A Snowflake's Journey - A Heartwarming Christmas Story for Kids

High above the clouds, a single snowflake drifted through the icy air, sparkling in the sunlight. Each snowflake around it had a partner, a group, or a place to land—but this one was all alone. As it floated down toward the town below, it passed twinkling lights, chimneys puffing smoke, and children building snowmen in their yards. The snowflake finally landed on the mitten of a girl named Mia. She was sitting quietly by herself, watching other children play. When she saw the snowflake glimmer on her mitten, she smiled for the first time that day. She whispered, "You came just for me." At that moment, something warm filled her heart, even in the cold air. Mia stood up and joined the other children in the snow. She laughed, made snow angels, and forgot all about being lonely. The tiny snowflake melted away, but its short journey brought joy and friendship to a little girl—and that was its Christmas miracle.

Comprehension Questions:

1-Where did the snowflake begin its journey?

2-Why did the snowflake feel lonely?

3-Who found the snowflake, and where did it land?

4-How did Mia's feelings change after she saw the snowflake?

5-What is the message or lesson of this story?

A Snowflake's Journey - A Heartwarming Christmas Story for Kids
